SUPPORT THE UCU STRIKE

The strike called by UCU is in response to a massive attack on university staff pensions which will result in lecturers losing a huge amount of their retirement income. The attacks on pensions are closely linked to the further marketisation of higher education more generally. While Universities have made a £1.8bn surplus and Vice Chancellors have seen dramatic increases in their pay, lecturers face pay cuts, casualisation and attacks on their pensions.

Enough is enough. We stand with striking lecturers and support them against these attacks.
